OPERA **NIGHTS**

Those who welcome into their lives something other than the banalities of the time are filling the Auditorium.

Golden song, fostered by men and women of civic spirit, there enriches this community with priceless gifts which will endure and grow throughout generations to follow.

Of what avail all the wealth of tangible assets piling up throughout Chicago if there were not those who give and those who accept opportunity for cultural increase?

In natural sequence to appreciation of music, which, of course, can come only of opportunity to hear it, follows acceptance of many other contributions to intellectual istence. Chicago owes a debt of deepest gratitude to those who make the Civic Opera possible.

TEach evening before, and again after, the opera Henrici's, the restaurant of "no orchestral din" is the great central meeting place of those who spend happy and profitable hours at the greatest source of musical entertainment and education between the Alleghenies and the Pacific.

Bewar at stake

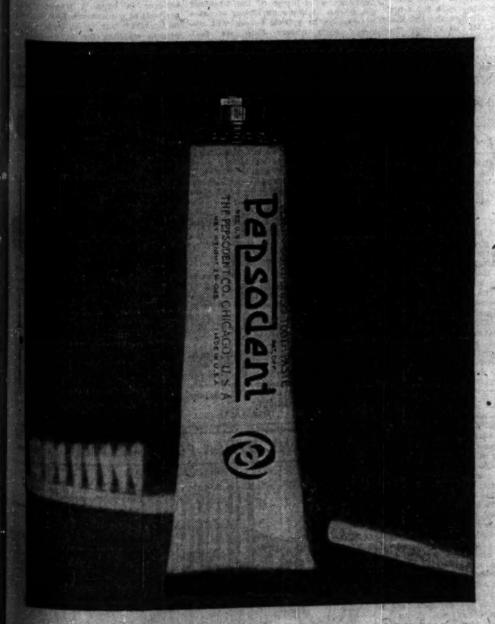

Film on Teeth...don't let it rob

you of a fascinating smile

The Film

that is found by dental research to discolor teeth and foster serious tooth and gum disorders

How to remove film—the question millions are asking. Now a special film-removing formula is urged by dentists. How, the new way acts

Beware when lovely teeth are placed at stake. The finest dentifrice is never too costly when science recommends it. "ISN'T there something I can do?" wrote a young woman recently. "I am so sensitive about my 'yellow' cloudy teeth. I brush them for hours only to meet with failure."

Today, three months later, she writes, "My teeth are as sparkling white and as lovely as those I used to envy....

How awfully near I came to never knowing it."

Millions do not know

A tragic story with a happy ending.... There are thousands like this charming girl whose winning personalities are shadowed by one fault too many—unattractive teeth. So many never find it out.

Now science has discovered, 9 times in 10, the cause of "discolored" teeth is a dingy film that coats them. It is your greatest enemy to loveliness. It is a dangerous enemy to health, too, for film is held responsible for decay, pyorrhea, bleeding gums and numerous other troubles. Your dentist knows how true this is.

You must fight film

Feel for film with your tongue—a slippery, sticky coating.

Food and smoking stain that film. Germs by the millions breed in it . . . germs of many different strains and various diseases.

Film hardens into tartar. And germs with tartar are the chief cause of pyorrhea. Film is also the basis of decay. Physicians agree a number of serious body ills are indirectly traced to film.

The special way to remove it

Ordinary brushing ways are not successful. You must employ the scientific method that first curdles film. Light brushing then can easily remove it in safety to enamel. Old ways may be discarded.

As children's teeth appear you marvel at their whiteness. Yours may once again regain that color. May take on a brilliance that is actually amazing. Lustreless dull teeth are known to be unnatural.

The danger of decay and pyorrhea is combated scientifically. In hundreds of thousands of cases under observation this way succeeds where ordinary brushing ways have failed.

Perhaps unattractive teeth have cost you too much in society and business. You must not delay another day in testing this method.

these is that the ship was unfit to go to sea. The second is that its personnel and equipment were not adequate to the emergency which occurred.

Whatever the cause of the sinking of the ship, it has not been shown that the weather or natural conditions encountered were abnormal. There was a heavy sea, how heavy is a matter of dispute, but not more than is normal and to be expected in the North Atlantic. Yet the ship sprang a leak in various places as if it were an old hulk, and efforts to keep it affect were vain.

It should be kept clearly to the fore in any consideration of this casualty, or of the question of sea travel generally, that the seasorthiness of the ship is of prime importance. Resort to small boats must be always a bad alternative. In any heavy sea it is virtually certain to mean loss of life. No ship should be allowed to leave harbor from an American port carrying American citizens

The fight has been waged by the "empress" and her daughter, "Princess Jacqueline," both of whom shared with Le Baudy world wide publicity attending the establishment of a very short lived "empire of Sahara."

The empress at that time was a pretty Parisian actress known as Marguerite Dollere and her child became known as the princess of the new empire. After Le Baudy's death and the empress' subsequent acquittal on a plea of self-defense, the empress brought suit in New York courts and won control as a common law wife won control as a common law wife of the American estate of Le Baudy, then valued at between three and four million dollars.

THERE is a new way to moth-proof and renovate clothing and upholstered furniture—a new way to clean and sanitize blankets, pillows and mattresses—a new way to rid your home of germs and dirt. It is done quickly and safely with air—the rotation of air or chlorine gas, through any fabric by a wonderful new dry cleaning system. This new dry cleaning system has already been adopted by over 2000 housewives in Chicago. It pays for itself in a short

time by savings made on cleaning bills and labor. It is being demonstrated in Chicago and suburbs by Sanitation Experts. If one chances to call at your home give him the courtesy of a 5-minute interview and you'll learn how to save years of trouble and needless expense. Demonstrations may be arranged by telephoning Central 9051, or writing to The Sanitation Systems, Inc., 203 N. Wabash Ave. Your asking for a demonstration will in no way obligate you.

F YOU visit the Kimball factories in Chicago and see the complex and astonishingly varied equipment of the different building units you realize what a stupendous output must be represented in Kimball distribution totals.

But do you realize that this production volume is also your assurance of unexcelled tone quality?

The Final Test of Merit

A piano is never bought until the purchaser has made a careful, searching investigation of its merits. Kimball tonal values, therefore, have been tried and tested oftener than those of any other piano-for more Kimballs are in use today than pianos of any other name.

Every purchase of a Kimball piano —and they number hundreds of thousands—is one more assurance to you of Kimball perfection in tone, physical beauty and endurance. Every instrument sold adds in some measure to the great reputation of this house.

Your Home Town Factory

Over and over again, for many years past, these proofs of merit have accumulated—here, under your eyes, in a Chicago organization. Ever since the institution was founded, over 70 years ago, it has spent its money in Chicago, employing Chicago men and women from one generation to another.

The Kimball "One-Price" assures the same full, generous value to every purchaser. Partial payments, if desired.

"Teeth soon white again," writes Miss Helen B. Follett "When I first started to smoke about five years ago I was horrified to find my teeth e taking on a yellowish tinge. I asked dentist if he couldn't suggest some way brevent this—for I didn't want to forego the pleasure of smoking.

"He said: 'Have you ever tried Pebeco?' I had not—but you may be sure I hurried right down to the store and bought a tube.

"A few days with Pebeco and I soon had my teeth looking white again. I like Pebeco's sharp, keen tang and the slightly salty taste. It is so refreshing. I get a big thrill being confident my teeth are admired and that I can legish and talk withcome.

TUST watch the girls who buy cigarettes nowadays! Watch them step. over to the tooth paste counter and ask for Pebeco.

Pebeco is the only tooth paste that actually keeps the teeth pearly-white -free from tobacco stains. Breath immaculate. Mouth moist, fresh and wholesome-tasting-all day long.

You'll feel the difference the minute you try Pebeco. There's no sweet. sugary flavor. No nauseating, soapy taste. Just a wholesome, business-like tang that makes your whole mouth glow with health and cleanliness.

Pebeco is different in formula and action from any other tooth paste. It contains a special ingredient that mildly stimulates the saliva. Keeps it flowing normally hours after you brush your teeth.

Smoking stains are washed away. Your breath stays sweet. Your whole mouth cool, clean and lovely.

Give Pebeco a full month's trial. See how you grow to depend upon it. Made by Pebeco, Inc., a division of Lehn & Fink Products Company. Sole distributors, Lehn & Fink, Inc., Bloomfield, N. J. Distributed in Canada by

The weakness of the United States, or cruisers is indicated by figures which show it has 146,000 tons of nodern cruisers built, building and uthorized, compared with a tonnage of 428,836 for Great Britain and 206,

of 429,826 for Great Britain and 206,900 for Japan.

In order for this country to build
up to the 5-5-3 ratio, as advocated by
United States naval policy, it would
be necessary to build 283,836 tons of
cruisers to equal Great Britain. To
attain the 5-5-3 ratio with Japan, a
total of 198,000 cruisers would have
to be built. Reduced in terms of
ships, the United States would have
to build twenty-eight 10,000 ton 3 inch
gun ships to attain tonnage parity
with Great Britain and at least nineteen to reach the 5-3 ratio with Japan.

New Program Falls Short.

New Program Falls Short.

Approval of the pending sixteen ship cruiser and aircraft carrier bill how pending in the senate and its ranslation into ships still would leave he United States thirteen ships short of parity with Great Britain and four thort of the 5-3 ratio with Japan.

MEN WHO SMOKE AND GUARD THEIR HEALTH, SMOKE CIGARS

100% of the Principal Executives of the American Express Company are Cigar Smokers

La Palina is America's Largest Selling High Grade Cigar [OVER A MILLION A DAY] its outstanding popularity is the best proof of its unusual quality

As a result of a survey it has been ascertained that 100% of the principal executives of the American Express Company are cigar smokers. This confirms the smok-ing choice of men whose execu-tive duties demand their best—in mental alertness and physical fit-

Gigar smoking never becomes a mere habit that plays havoc with the nerves and causes what is commonly known as "tobacco throat." For a cigar, if its rich taste is to be enjoyed to the full, must be and is smoked slowly and leisurely. One is not lighted from the end of another to satisfy the insistent demand of harried nerves. Nor does the average cigar smoker inhale. There is no necessity, and in-halation is an outstanding source of nerve irritation.

Then, too, it is the opinion of medical authority that the major amount of throat troubles amongst smokers is due to the burning, drying effect of hot tohacco smoke upon the tender tissues of the throat, Cigars cannot cause these conditions—for, to quote a prominent New York throat specialists

"Cigar smoke is cool, since the tobacco burns slowly and is further cooled and filtered as it is drawn through the body of the cigar, and because no quick-burning substance is used for wrapper."

Make this test for a weekcigars exclusively and you will find yourself feeling better, with no cough or throat irritation. improved nerves, increased vitality, and less of that tired feeling.

To really test cigars with justice to yourself and to cigars, we sup-Palinas. Since they are America's largest selling high grade cigass ... over a million a day you can smoke them, confident that they will please you.

The sensational success of La Palina results from an exclusive and secret blend which combines for the first time in one cigar as extreme mildness with a rare rich ness of both taste and fragrance

cial.]—Iown on Saturday will meet the same Michigan back field which upset Illinois three weeks ago. Coach Tad Wieman arrived at this decision after experimenting in the Navy and Michigan State games. The backs will be Capt. Rich at quarter back, Simrall and Dahlem at the halves, and Gemhis at full back.

This back field centains two speed merchants, Simrall and Dahlem, a crushing line plunger in Gembis, and an off tackle specialist in Rich.

However, the rest of the Michigan team will not be the same as that which upset the Illini. Several new faces will appear in the line against the Hawkeyes, or at least in new positions. Bovard, veteran center, has regained his position, but Cragin, his understudy during his convalescence, proved himself too valuable to be sitting on the bench and will assume the place of Huburt at right tackle.

—Preparing for a bruising line battle at Ann Arbor Saturday, Coach Burton Ingwersen gave much attention to his forward wall material in today's workout at the University of Iowa. Reserve Hawkeye linemen got a long drill both on offense and defense. Fuhrman and Myers at the guards and Ely and Benjamin at tackles were used in place of the regulars much of the time.

Thanksgiving day, has mapped an arduous practice campaign for his gridders. Two sessions each day have been prescribed for the soldlers, blackboard talks in the morning and regular practice in the afternoon.

The visit of Dick Hanley, Northwestern university coach, has helped to polish the play of the Army eleven. Coach Haskins is following advice Hanley gave when he devoted some of his spare time toward the development of Ft. Sheridan's team last week. Coach Jimmy Phelan gathers his Purdue back field stars for a lesson in plays designed to rout Indiana in the annual battle between the Hoosier rivals in Ross-Ade stadium Saturday. New records for number of passengers carred and for gross receipts were chalked up last month by the Chicago Surface lines. The total number of rides during the month exceeded 142,000,000 and was 2,000,000 greater than in March of this year, the previous high month. The gross income rose to 55,475,000, which was \$52,000 larger than in December, 1928, when the old record was established.

These figures will require a good deal of explaining by those who believe that street car transportation in large cities is tottering toward its end. It is not, in Chicago, at eary rate.

Bonds mature semi-annually May 1, 1931, to Sept. 1, 1938. Denominations: \$1,000 and \$500 bonds in all maturities; \$100 bonds in last maturity only. Callable at 102. Federal Income Tax not in excess of 2% payable for the bondholders. Bonds and coupons payable at office of H. O. Stone & Co., Chicago.

Trustee: Chicago Title & Trust Company

A direct (closed) first mortgage on the Calhoun Apartments and Club Building, its furnishings and the land in fee thereunder. The appraisal by Preston M. Nolan, Appraiser, of Chicago, is as follows:

Total Valuation......\$1,659,000.00

Net income of building, exclusive of Club portion..... Guaranteed net annual income from Calhoun Beach Club

Total net income..... \$ 142,380.00 The above estimate shows the earning power to be nearly three times the greatest annual interest charge of this bond issue.

Northeast corner of Lake Street and Dean Bouleyard, Minneapolis. The building overlooks Lake Calhoun and commands views of four large lakes, all within the limits of Minneapolis. The exclusive lake district is within easy reach of down town Minneapolis by boulevard, bus and trolley lines.

The Calhoun Apartments and Club Building will be nine stories in height of reinforced concrete and steel fireproof construction. It will cover the entire frontage of 212 feet on Dean Boulevard and 145 on Lake Street. All sides of building of dark face brick; roof of dark red tile with cornices of copper. The ground floor will contain eight exclusive shops; also the natatorium, with swimming pool. The second floor contains a lobby, lounge, public and private dining rooms and gymnasium. There are five floors of apartments, each containing fifteen units, and a roof garden.

tora: The Calhoun Beach Club has leased the club portion of the building for twenty-five years at an annual rental of \$60,000. This rental income is personally guaranteed by Henry G. Foote, President; Ernest Malmberg, Secretary, and Harry S. Goldie of the borrowing corporation, whose combined net worth exceeds \$350,000. These guaranters also guarantee the payment of \$250,000 of principal and interest of the bonds first maturing of this issue.

These bonds are exceptionally well secured and are offered with our unqualified recommendation. Write for illustrated circular T1121 or phone Franklin 5600 and make reservoitions.

Authorized and approved by the Council of the League of Nations.

\$13,000,000 Kingdom of Bulgaria
71/2% Stabilization Loan 1928

Forty-Year Secured Sinking Fund Gold Bonds

These \$13,000,000 Bonds are part of an International Loan, limited (as authorized by the Council of the League of Nations) to yield to the Government a net amount equivalent to £5,000,000 Sterling; the balance of this Loan is being offered as follows: £1,500,000 Sterling Bonds in London by the Ottoman Bank, J. Henry Schröder & Co. and Stern Brothers; £200,000 in Amsterdam by Hope & Co. and Banque de Paris et des Pays-Bas; £100,000 in Prague by Zivnostenská Banka v Praze on behalf of a Czechoslovakian Banking Syndicate, and Fcs. 130,000,000 Bonds in Paris by Banque de Paris et des Pays-Bas, Banque de l'Union Parisienne, Comptoir National d'Escompte de Paris, Crédit Lyonnais, Crédit Mobilier Français and Société Générale pour Favoriser le Développement du Commerce et de l'Industrie en France.

His Excellency Wladimir Molloff, Minister of Finance, has authorized the following statement in behalf of the Bulgarian Government; having been transmitted by cable, it is subject to correction:

The Loan is issued pursuant to the Geneva Protocol of March 10, 1928, as amended September 8th, approved by the Council of the League of Nations by Resolutions of March 10, June 9 and September 17, 1928, ratified by Acts of the Bulgarian Parliament of April 13 and September 27, 1928, and pursuant to an Act of the Parliament of November 13, 1928, approving the Loan Contract. The amount of the Loan is limited to \$13,000,000 Dollar Bonds, £1,800,000 Sterling Bonds and Fr. Fcs. 130,000,000 Bonds.

The Loan will be the direct obligation of the Bulgarian Government and will be secured by a first charge on all receipts from these revenues for the two years ended March 31, 1928, and the estimated amount for the current fiscal year, are approximately as follows:

or, for each year, over four times the annual interest and sinking fund on the entire Loan.

By Resolution of September 24, 1928, the Inter-Allied Commission (established under the Treaty of Neuilly) released the customs revenues from the first charge for reparations and costs of occupation and the general charge for treaty obligations.

for treaty obligations.

If at any time the receipts from the above revenues should fall below 150% of the annual service requirements of the Loan, the Inter-Allied Commission has agreed to release, at the request of the Council of the League of Nations, from the above general charge additional revenues sufficient to insure total revenues equal to at least 150% of the service requirements, and the additional revenues so released shall be forthwith assigned to the service of the Loan.

The Pledged Revenues will be paid as collected into a special account (with the National Bank of Bulgaria), to be controlled by a Commissioner appointed by the Council of the League and, after the termination of his functions, by the Trustees for the Bondholders to be appointed by the Council of the League. The sum required for the service of the Loan will be remitted to the Fiscal Agents in monthly instalments for the account of the Trustees.

From the Proceeds of the Loan, approximately \$7,300,000 will be paid to the National Bank of Bulgaria for stabilizing the currency, and approximately \$3,163,000 to the Agricultural Bank and to the Central Cooperative Bank for additional working capital; the balance will be expended under the direct control of the Commissioner, approximately as follows: \$6,083,000 for the improvement of roads, railways and ports, \$2,433,000 for reconstruction work necessitated by the earthquakes of last spring, and \$5,353,000 for the payment of floating debt in order that the revenues of the State may be used to maintain a balanced budget.

The Currency, which has been subject to only small fluctuations during the past five years, will be stabilized in relation to gold by law.

For the year ended March 31, 1928, revenues were about

For the year ended March 31, 1928, revenues were about \$50,290,000, and the surplus over expenditures was about

\$435,000.

Bulgaria, with an area of about 40,000 square miles, has over 5,000,000 inhabitants, or a larger population than Denmark, Finland, Norway or Switzerland. The country is mainly agricultural, and exports considerable quantities of tobacco, cereals and other farm products.

External loans of Bulgaria were sold before the war in England and leading countries of Continental Europe; the 4½% Bonds of 1907 and 1909 (the last pre-war Loans) were marketed on a 5% basis.

Conversions have been made at 138 Leva to the Dollar and at par of exchange for other currencies.

For further information, reference is made to a letter dated November 16, 1923, from His Excellency Wladimir Molloff, Minister of Finance of the Kingdom of Bulgaria, copies of which may be obtained from the undersigned. All proceedings in connection with the issuance of the above Bonds are subject to the approval of our counsel, Messra. Cadwalader, Wickersham & Taft and associate Bulgarian counsel.

We offer the above Bonds for subscription, if, as and when issued and received by us, at

97% and accrued interest, to yield to maturity 73/4%.

We reserve the right to close the subscription at any time without notice and to reject any application or to allot a smaller amount than applied for. Amounts due on allotment will be payable at the office of Speyer & Co., 24 & 26 Pine Street, in New York funds, on or about December 3, 1928, as called for, against delivery of Interim Reccipts exchangeable for Definitive Bonds when ready.

One young married woman I know as had to earn money ever since er children were very little. She has one it by making little girls' dresses, he always chooses charming marrials and charming styles. Given bese two things it is possible to make charming dress without elaborate

She has also made little dresses for he women's exchanges and small hops. But that is not her favorite ray of working. The individual orders sem beat. People whose children ave once worn her delightful creations always come back for more.

For women who leve sewing and designing this is not an arduous kind if work and leaves a great deal of reedom as to when the sewing—and new much of it—shall be done.

This young mether at first did all fer own housework, but after a while he found it more profitable to have part time maid and use that energy in her small business.

Here then is one more suggestion or sarning money at home.

the season's latest negligees.

And what grace notes any of the three does form in the theme of the negligee! With what skillful manipulations, with what infinity of detail, may the garment be varied! Let us take, as an example, the jacket shown in this elected. First of all, it is opened all the way down the back from the V neckline. Second, it is tashioned on loose and graceful lines. Third, it continues at the sides into draperies reaching below the hem of the foundation. And last of all, the aleeves with their great width at the wrist are topped by the faconne velvet of the undergarment.
